

VS-Technology Corporation

February, 1,2020

VS-Technology releases the VS-FT12HV series, Built-in liquid focusing 12MP 1.1" wide angle fixed focal length lens.

TOKYO – VS-Technology Corporation is pleased to announce the release of the VS-FT12HV series wide angle fixed focal length lens with built in liquid focusing. This new series supports wide angles and is able to adjust focus from 150mm to infinity.

This lens series is designed for the demands of high-speed focusing applications where the object distance changes greatly and frequently such as OCR and code readers. By taking advantage of the wide-angle, the lens can reduce the number of cameras and lenses to install in a vision system and free up limited spaces.

【Features】

- ◇ 3.45μm Resolution
- ◇ Large angle of view with 1.1" sensor
- ◇ Able to adjust focus from 150mm to infinity.

【Applications】

Applications where the object distance changes greatly and frequently. OCR and barcode reader.
